Snow removal: The village office requires your cooperation

For everyone's sake, please help make snow removal more cost effective and safer by observing the following manners.

1. No on-street parking

Snow removal operations are usually conducted at night or from early in the morning. Please help us by not parking on the streets or public areas to ensure a smooth process.

2. Do not plough snow onto roads

Be considerate, do not plough or deposit of snow on public roads or sidewalks. This action may put pedestrians and motorists at risk and may lead to fatal traffic accidents. The person whose action caused the accident has to take full responsibility.

3. Put up signs to raise awareness about falling snow from roof

Falling snow and ice from the roof can cause severe injuries to pedestrians. Please clear off roof snow of your property before it becomes dangerous. Also, you should put up signs at where snow may fall off.

The property owner is responsible for clearing the snow that falls from your roof onto a public pavement promptly.

4. Cut off of trees that may interfere with snow ploughing operations

Keep your trees trimmed.

Also, branches or trees which interfere with snow ploughing operations may be cut off.

5. Do not remove snow poles

The bamboo poles stood up along the roads are for a smooth and safe snow removal operation. Please do not remove any poles.

6. About spreading of road de-icer

The road de-icer is usually spread twice a day: before the peak-hour to and from work or school in the morning and evening.

7. About snow removal in private areas

Avoid or minimize the troubles you may cause your neighbours when removing snow from your private areas. Do not plough or deposit of snow onto somebody's land without the owner's permission.

Addition to that, residents who live adjacent to a public road or a pavement should take up the responsibility to clear up the snow remains in front of your entrance or parking lots.

8. About snow disposal sites

It is very important to have enough snow disposal sites to ensure snow removal operations can be carried out smoothly. We ask for the land owner's understanding and cooperation in this matter.

9. Skiing or snowboarding on roads is strictly forbidden

Skiing or snowboarding on roads interferes with snow ploughing operation. Also, it puts you, other pedestrians and motorist at risk and thus it is prohibited.

Ski on designated trails and areas only.

**Your cooperation will be highly appreciated.
Wish everyone a happy and safe winter season in Hakuba.**
